RISHTHAA
COMPANY PVT. LTD

COMPANY PROFILE 2026

Rishthaa Company Pvt Ltd

WHO WE ARE

Vision, mission & values

VISION

To become one of the Maldives' most trusted telecom infrastructure and civil construction contractors — known for disciplined execution, safe worksites, reliable delivery, and long-term client relationships.

MISSION

To deliver practical, durable, and cost-controlled construction solutions across the Maldives through skilled manpower, strong project supervision, proper documentation, and responsible management.

WHAT GUIDES US

Discipline
Structured, standards-driven execution on every site, every time.

Safety
Rigorous protocols protecting our crews on tower, civil, and marine sites.

Quality workmanship
Attention to detail and lasting structural integrity in every build.

Reliability
Consistent delivery against agreed timelines and specifications.

Accountability
Clear ownership and transparent reporting at every project stage.

Long-term trust
Repeat partnerships built on dependable, honest engagement.

BACKGROUND

About Rishthaa

Rishthaa Company Pvt Ltd is a Maldivian construction and telecom infrastructure contractor specialising in telecom tower projects, civil construction, design-and-build works, sewerage and water infrastructure, resort and marine works, maintenance, and island-based project execution across the Maldives.

With over 20 years of operations since our 2005 registration and 146 completed projects, we have built a reputation for disciplined execution, practical island logistics, and reliable delivery for telecom operators, government institutions, banks, resort developers, and private clients alike.

COMPANY TIMELINE

1991	Early operations under Shady Group lay the groundwork for our construction capability.
1999	Business officially registered as Rishthaa Rentals.
2005	Rishthaa Company Pvt Ltd registered, with construction as the core business.
2014	Major commercial building works, including a 4-storey building at M. White Beach.
2015	Entry into telecom and utility infrastructure projects nationwide.
2016	Ooredoo lease line works and island water & sewerage projects.
2020	STELCO substation foundation and boundary wall works.
2021	Dhiraagu tower works — 60m installations and monopole foundations.
2022	Ooredoo, Dhiraagu and STELCO infrastructure works across multiple atolls.
2026	Ongoing telecom infrastructure, civil construction and design-build works nationwide.

WHAT WE OFFER

Our services

Full-scope construction and infrastructure capability — from telecom towers to civil works, delivered island-wide.

01

Telecom tower works

Foundation, erection, and rectification works for monopole and lattice telecom towers across the Maldives.

02

Civil construction

Residential, commercial, and institutional construction delivered with disciplined site supervision.

03

Design & build

End-to-end project delivery from design coordination through to turnkey handover.

04

Sewerage, water & utility infrastructure

Pipeline, water, and utility infrastructure works for government and institutional clients.

05

Resort, marine & island works

Maintenance, back-of-house construction, and logistics support for resort and island clients.

06

Maintenance & repair

Responsive building and structural maintenance services across civil and telecom assets.

Service pledge — Rishthaa Company hands over every project as per contract, and takes full responsibility for any shortcoming or fault.

CORE CAPABILITY

Telecom tower works

Our flagship capability. We deliver complete tower works for the Maldives' leading operators — Dhiraagu and Ooredoo — from foundation design through erection, painting, and structural rectification, on inhabited islands and resort environments alike.

SCOPE OF WORKS

Tower foundation works	Monopole foundations
Tower erection	Lattice tower installation
Tower painting	Tower rectification
Telecom site preparation	Shelter & platform works
Generator pads & utilities	Cable laying support
Fencing & boundary walls	Island mobilisation

Island logistics is our edge. Sea transport, crane mobilisation, and remote crew deployment are planned into every tower project — so schedules hold even on the most remote sites.

RECENT TOWER DELIVERIES

60m tower installation & painting
Dhiraagu · K. Himmafushi · 2021

35m lattice complete tower works
Ooredoo · Hondaafushi · 2022

27m monopole complete tower works
Ooredoo · Anantara Resort · 2022

OUR PROCESS

How we work

A structured five-step delivery process — from first enquiry to documented handover — keeps every project predictable, supervised, and accountable.

01

Enquiry & site assessment

Scope review, island site visit, and feasibility assessment — including access, logistics, and ground conditions.

02

Proposal, BOQ & costing

Detailed bill of quantities, realistic timeline, and transparent cost breakdown — documented before work begins.

03

Mobilisation & logistics

Crew deployment, material procurement, and sea transport to site — planned around island supply realities.

04

Execution & supervision

Disciplined site execution under dedicated supervision, with safety protocols and progress reporting throughout.

05

Handover & after-support

Full documentation, snag resolution, and ongoing maintenance support after project completion.

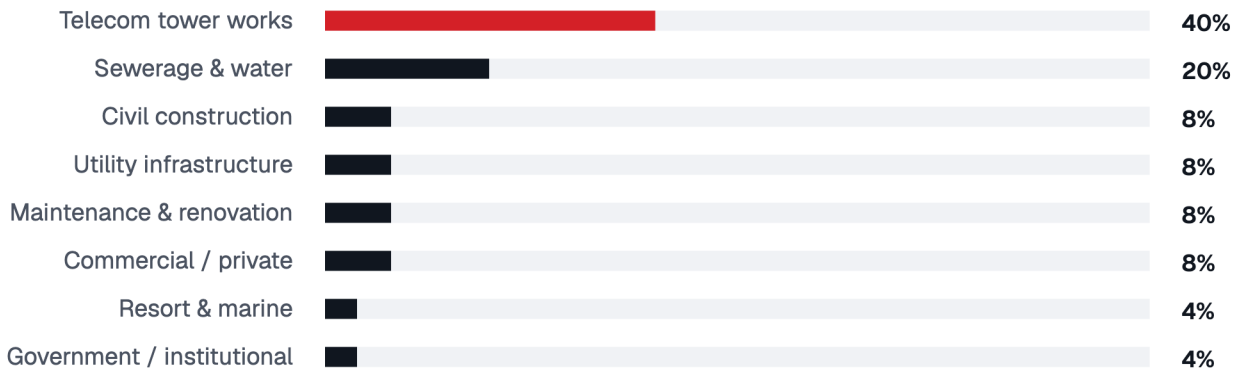
SERVICE CATEGORY DISTRIBUTION



NATIONWIDE REACH

Tower & project works footprint

Our project footprint spans atolls from the far north to the far south — telecom tower sites, resort developments, and government utility projects on inhabited and resort islands alike. This has given our teams practical expertise in island mobilisation, material logistics, and remote site execution.

ATOLLS WITH COMPLETED WORKS

HA	Thiladhunmathi N.	**HDh**	Thiladhunmathi S.	**Sh**	Miladhunmadulu N.	**N**	Miladhunmadulu S.
R	Maalhosmadulu N.	**B**	Maalhosmadulu S.	**Lh**	Faadhippolhu	**K**	Malé Atoll
